River Run Network Clean Up & Arundo Removal: Sabino Creek @ Wes Miller Park

Come join us for special access to the Wes Miller Park along a perennial (year-round flow) reach of Sabino Creek. We are so excited to take Arundo Removal across Tucson into many of our other creeks and rivers, not just the Tanque Verde Creek.

At this event, we will focus our efforts on picking up trash and removing a few small stands of Arundo and other invasive plants in and around the Sabino Creek area - near Snyder Road at Wes Miller Park.

We will bring everything you need to participate in this effort to pick up trash and remove the invasive species, but you are welcome to bring your own supplies as well! We recommend bringing your favorite set of gloves, a water bottle, and loppers if you have them.

This event is organized through WMG's River Run Network (RRN). Members work together to learn about and steward our creeks and rivers through creek walks, restoration activities, river clean-ups, and educational workshops. If you are not yet a member, we will add you to the RRN when you register for this event. Membership is free and includes a regular e-newsletter with upcoming events.

This event is supported in part by Arizona State Forestry and Fire Management.

When:

Friday, December 20, 2024 - 2:00pm

Where:

4980 N Hidden Valley Rd
Tucson, AZ 85750

Register online (</civCRM/event/register?reset=1&id=2472>).
