Traffic Shift at Culvert Replacement Work Project Sunrise Drive at Esperero Wash

Pima County, Ariz. (April 13, 2026) –Pima County Department of Transportation along with their contractor, Southern Arizona Paving, has shifted all traffic including pedestrians to the south side of the road on Sunrise Drive at the Esperero Wash until the roadway is re-opened in July/August.

During the construction period, there will be a 25 mph, two-lane detour that will shift traffic through the work zone. Be advised the detour is routed underneath overhead wires and will have a 15' minimum overhead clearance. Flaggers are present to manage construction access through the project area.

Please stay out of the active work zone for this project. A temporary path is delineated on the south side of the road. Automobiles and bicycles shall continue to share the temporary detour road. These corridors are in-place for your safety – there are numerous trip and fall hazards within the work area. This area is particularly dangerous at night when these hazards are not visible.

Southern Arizona Paving will provide some protection fence and signage as a reminder to keep out. However, it is not feasible to fence the entire space. We ask that you use the travel paths on the South side of Sunrise Drive, until the new culvert is complete and the roadway and shoulders are re-opened.

Please approach the area with caution, obey all traffic control devices and allow for extra travel time.

In the event of mechanical failure or inclement weather, the construction schedule is subject to change.
